# NAQEEB AHMED

Software Engineer | Full Stack Developer

Lahore, Pakistan | naqeebahmedsahi@gmail.com | +92 307 6131070

LinkedIn | GitHub | Portfolio

## Technical Skills

**Frontend:** React.js, Next.js, JavaScript ES6+, TypeScript, Electron.js, HTML5, CSS3, Tailwind CSS, Material UI

**Backend:** Python, Django, Django REST Framework, FastAPI, Node.js, Express.js, Flask, C# (.NET Core), ASP.NET MVC, PHP

**Databases:** PostgreSQL, MySQL, MongoDB, SQL Server, SQLAlchemy, PyMongo

**AI & LLM:** OpenAI API, LangChain, Retrieval-Augmented Generation (RAG), Vector Embeddings, LLM Integrations

**Tools & Cloud:** Git, GitHub, Docker, AWS, Microsoft Services, Figma, REST APIs, OAuth

**Programming Languages:** Python, JavaScript, TypeScript, Java, C/C++, C#, MATLAB

## Professional Experience

**Code Graphers** **Nov 2025 – Present**

*Software Engineer (Full Stack Developer)* *Lahore, Pakistan*

**BitStage – AI-Powered Recruitment & Interview Platform** Live Site

- Developed production features for an AI-powered recruitment platform covering role creation, candidate screening, interviews, recruiter workflows, billing, and candidate evaluation.
- Built and refined the **Stage Door** and **Centre Stage** hiring experiences, including pricing, role capacity, screening interview limits, and recruiter workflows.
- Implemented operator-facing instant interview invitation settings using resume and rehearsal score thresholds.
- Improved candidate workflows including resume analysis, AI rehearsal, interview approval, scheduling, and recruiter-reviewed candidate scoring.
- Restored and maintained candidate-facing features including the Resume Analyzer, Practice Rehearsal, navigation, and production routing.

**Enterprise HR Suite & Director's Assistant Automation** *Electron.js / PostgreSQL*

- Developed an automation ecosystem using Electron.js and PostgreSQL to digitize Director-level administrative workflows.
- Architected an HR Management System for onboarding, payroll, attendance, and employee administration.
- Integrated Microsoft services for Outlook synchronization, scheduling automation, and enterprise storage workflows.

**AI-Powered Document & Video Intelligence Platform** *React / Django / LangChain / RAG*

- Built a RAG application using React and Django for intelligent interaction with corporate documents and video content.
- Engineered context-aware AI processing pipelines for PDFs, documents, and video transcripts using LangChain.
- Automated metadata extraction, chunking, vector embeddings, and semantic information retrieval.

**Robotronics Pakistan** **Feb 2025 – Oct 2025**

*Associate Software Engineer (MERN Stack Developer)* *Lahore, Pakistan*

- Developed and maintained web applications using MongoDB, Express.js, React.js, and Node.js.
- Implemented secure authentication using Passport.js with Local and OAuth strategies.
- Built responsive interfaces using Material UI and Tailwind CSS.

**Robotronics Pakistan** **Nov 2024 – Feb 2025**

*Full Stack Developer Intern (MERN Stack)* *Lahore, Pakistan*

- Developed an admin panel using the MERN stack following reusable and modular development practices.
- Implemented product-management and data-handling workflows with dynamic user-interface elements.
- Created responsive designs using Material UI.

## Key Projects

**AI-Powered Website Editor** *MERN Stack / GrapesJS / NLP*

- Developed an AI-powered drag-and-drop website editor using GrapesJS with a custom RESTful API.
- Implemented NLP-based website section generation and editing through natural-language commands.

**KyMed – Surgical & Dental Instruments Website** Live Site

- Developed a professional medical-device website showcasing surgical and dental instruments, product categories, certifications, and global manufacturing capabilities.
- Built a responsive product-focused experience designed to support international buyers, quotation requests, and medical-device product discovery.

**Saluvia Industries – Electrosurgical Instruments Platform** Live Site

- Developed a modern product website for a manufacturer of electrosurgical instruments serving hospitals, distributors, and OEM partners worldwide.
- Built structured product catalog, manufacturing, quality, OEM, private-label, and quotation flows for international healthcare buyers.

**Orthopedic Saluvia – Orthopedic Instruments Website** Live Site

- Developed a responsive orthopedic medical-instruments website focused on presenting surgical product categories, product details, and manufacturer capabilities in a professional format.
- Structured the website for clear product discovery and international buyer inquiries, with a clean medical-industry interface optimized for desktop and mobile devices.

## Education

**University of Engineering and Technology (UET), Lahore** **2021 – 2025**
*Bachelor of Computer Science* *CGPA: 3.314 / 4.00*

## Certifications

- HTML, CSS & JavaScript – Certification Course
- WordPress Crash Course: Build Any Website
- PyMongo Essentials: MongoDB with Python
- Python and Flask Demonstrations Practice
- MERN Stack: Practical Project
